- ABOUT US -

Femdom Clicks Network is created as a result of increased advertising demands of femdom website owners during previous years. Femdom Clicks is first systematized advertising network specialized in high quality female domination traffic evolved from years of site development and improvements.

Limited amount of available traffic is highest quality and best converting what you will see in samples available down in this document. This means that here you won't find tons of zero or low converting skimmed traffic available from internet traffic brokers driven from useless TGP or popups. Instead, now you can get additional exposure of your sites to already filtered real femdom visitors. In these hard times and complete mess and unfair Google results, site owners will know to appreciate our service.

Common question of advertisers is: *If your traffic is so good, why don't you simply promote sites on your network.*

Answer is: *Yes, we do promote as usually and only goal of selling part of our traffic is faster money earning where money made is used on making our network even bigger.*

As you will see in chapter below, this is mostly hand written content network that is very hard to maintain and it is taking hundreds of working hours to maintain it. This kind of network is always asking for more fast investment so it can develop faster. (blogs and article writing, photos and video editing, keyword research...)

- OUR SITES -

In this moment, Femdom Clicks network contains 40 unique websites based on Wordpress CMS. After much testing and time invested, we found that Wordpress is best CMS because of its speed, options to configure and SEO.

Most of content is handwritten and even if main niche is femdom, sites are separated into smaller sites oriented to female domination micro niches (ballbusting, spanking, trampling, foot domination, cbt...etc).

Smaller websites have smaller visit but combined all together, our network is unique and fantastic tool to get filtered traffic where majority of it is coming from search engines what you will see later in traffic analytics samples. Below is list of websites inside network and for more info about every site (traffic sample and % of SE traffic) visit our page by [clicking here](#).

On the list, you can also see year from when site is online and this information is helpful to SEO gurus who knows how important is domain age when your goal is to take as much as possible SE traffic.

- PACKAGES OFFER -

Until now we have learned that site owners have different needs depending on their advertising plans so we have 5 different service packages available for you, plus one bonus package. All packages are eligible for discounts if advertiser is buying bigger amount.

1. BLOG POST PACKAGE

Blog Posts Package is best way to get permanent links on our unique network. Once published, blog posts will remain forever online and link to your pages. Blog Post can be 1000 characters long (minimum length is 90 characters) and must be relevant niche (femdom, humiliation, torture, mistress or fetish) to be published on our blogs. You can choose between dozen blogs and for complete list, click here.

<http://www.femdomclicks.info/our-network/>

Minimum order is 5 blog posts. They can be scheduled and published on precise date defined in your order, depending on your personal advertising strategy. Beside text, blog post can contain photo (or complete photo gallery) or streaming videos (from our server).

Beside discount for orders over 35 blog posts, there is also blog writing service available by our partners. Please use our support ticket page to get more info.

2. PPC CAMPAIGN

PPC Campaign package is classic pay per click type of advertising. With our service you will get best and highly converting female domination traffic not available anywhere else. For more info about traffic sources, please visit our FAQ page.

With PPC model you can order precise amount of clicks to your site through banners put on our network. You can always access advertiser control panel and see CTR (click through ratio) and precise stats. Every day you will get clicks report to your email address for easier tracking and performance evaluation. Minimal order is 3000 clicks. There is discount available for orders over 20K clicks.

Considering that you already saw our site list, you can see that there are many micro niche femdom websites (ballbusting, trampling, spanking...) so there is also option to advertise only on those sites and get clicks only from there. Since this is already filtered traffic, notice that it will take a longer time to collect all ordered clicks in this way. This option is available for clients that are with us more than three months.

For campaigns that will last longer period of time, there is option to change banner design while campaign is active.

3. CPM CAMPAIGN

CPM (CPI) Campaign is classic impression advertisement campaign. CPM (cost per mile) is the closest online advertising strategy to those offered in other media such as television or print, which sell advertising based on viewership or readership. Same as our PPC campaign client will get access to control panel and daily email report to track performance and how many times their banner is shown to visitors on our sites.

CPM campaign means that instead of number of clicks, you are buying number of how much times your banner will be shown on network. CPM campaign are cheaper and good for those who want to maintain strong presence in advertising world and tell their competitors that they are here or remind visitors about their existence.

Minimum order is \$100(25,000 impressions on our sites) .All clients that are with us more than three months will get option to advertise on micro niche sites regarding their preference (they can choose on what sites precisely on our network their banner will be shown). For orders bigger than 50,000 impressions, discounts are available.

4. HARD LINKS PACKAGE

Hard Links Package is perfect tool for all those femdom site owners battling for better ranking on search engines. As you already know, one of most important things is having as much possible one way links to your site but they need to be relevant. With our Hard Links package, you will get 40 one way links from our female domination sites that will help you be positioned better in battle for SERPs that is becoming harder every day.

Fee is \$199 per year while you will get discounts if ordering for more than one year. Depending on your SEO strategy you can schedule when do you want that links go online which means that they don't have to be published in one day, but they can go up slowly on date you ask from us.

For more info about sites in our network and complete list , click here.

5. TIME DEFINED BANNER

Time Defined banner is option for advertisers to buy banner on our network and choose how long it will be there. This option depends on number of available slots so before proceeding, contact us to see what slots area available and on what site. Advantage of Time Defined Banner option is that you can publish banners on niche targeted sites from our network depending on advertised site requirements.

Since Time Defined Banner is lower ranked advertising option which means that other campaigns have advantage ,which is a reason why there is no direct option to order, and that is why you need to contact us before ordering . For a complete list of sites and more info about them, click here: <http://www.femdomclicks.info/our-network/>.

Price in grey box on this page is just example and info about precise price depends on available slots and our schedule.

6. BONUS PACKAGE - CUSTOM CAMPAIGN

Custom Campaign is advertising option left for those with special needs for their advertising strategy. If you are one of those that have some additional marketing requirements (from any reason), we can offer advertising plan for you made from mixed options of our already offered packages . Please use our support ticket system or contact page to get in contact with us and get some more info about this advertising option. Since this is complex system, available slots for these campaigns are limited and depend on current state of advertising network.

- WHAT IS ADVERTISER GETTING -

Once you become our client (advertiser) you will get high quality targeted female domination and fetish traffic that you were not able to get until now. It is important to mention that our network is about quality and not about quantity. We are offering specific and honest service never seen until now. In previous chapter you saw information about every package that will help you decide what do you need. For example, Blog package will help you improve your site SE ranking and will give you small amount of clicks, but long term, it will continue to send you clicks forever. If you are looking for a faster results, you can order precise amount of clicks or impressions, depending on your needs.

Even if whole concept is not organized as high volume traffic system, please be aware that spots are limited since we don't want to make banner farm from our sites, which means that there are precisely defined banner spots on all sites. Depending on demand, some spots can be closed, and that is why there is no direct sale link but order page on our site. This is complex system and order must be reviewed before advertiser requirement is approved.

Before you order service from us, notice that we are only accepting fetish advertisers and not general adult sites.

Beside valuable traffic, links and SE ranking improvement, there is one more, very important thing that advertisers using our CPC or CPM packages will get at the end of campaign. That is full report available also in Microsoft Excel format, where you can precisely see your CTR (click through rate) on every site where your ads were served. This will help you for future planning and targeting traffic (niches) that will help you increase profit margin.

We are preparing bonus feature for clients that are with us more then several months. This time is necessary to make conclusions depending their tracking statistics so we can see what site have highest CTR rate so in the future we will even more filter traffic and publish their banners only on sites with highest CTR.

There is also one great feature for advertisers and that is option to change banners while campaign is still active while clients that are using CPC and CPM campaigns will get daily report directly on their defined email address.

- TRAFFIC QUALITY -

As promised, we are delivering relatively small traffic amounts (compared to mass traffic brokers with non converting zero quality traffic) but our clicks have almost constantly same conversion rate during previous years even with all those changes on market and SE algorithms. Of course, after all those scams happening online and your probable disappointment with traffic brokers, before you buy advertisement on Femdom Clicks Network, we want to share some statistics with you. For deeper analysis and tracking we are using famous software, Nifty Stats. Below is print screen with more details explained below.

Affiliate Program	Total Income	Raw Hits	Unique Hits	Sales	Rebills	Refunds	Chargebacks	\$/Raw	Sales:Raw	Sales:Unq	\$/Unq

Total	\$70,663.96	3,867,863	3,226,477	3,324	1,300	46	4	\$0.0182	1:1,163	1:970	\$0.0219

conversion ratio is **1:970** on 3.2 millions clicks sample

[click here for larger image](#)

Some sites are converting better then other depending content quality and credit card processor site is using (high scrubbing rates decrease conversion ratio) and we are proud to say that our average conversion is even under 1:1000 as you can clearly see on sample photo above. As you probably know different period of year have different conversions so for best conclusions about how your site is converting is always best to analyze data on bigger clicks sample.

- TRACKING SOFTWARE -

Some of advertisers were asking about reliability of clicks tracking software that is crucial part if you are buying PPC or CPM packages. After much time invested in research what solution would be best for our system requirements, we found that Open X is most reliable and independent option to go.

Open X Ad Server is robust solution probably with most years of online exploitation compared to other similar products. Combined with our dedicated server, it is giving fast and precise results in advertisement delivery.

You can soon expect some advanced option as video advertisement that should drastically increase CTR of your ads.

For more info about Open X Ad Server self hosted solution, visit their home page :

<http://www.openx.com/>

- CLIENT ZONE -

Below you can see how yours access as advertiser (client) looks like with short explanation.

Picture number 1:

Once registered as advertiser (client), you will get you purchased campaign that you can see as shown with basic info.

The screenshot displays the OpenX Ad Server interface. At the top, the logo 'OpenX Ad Server' is visible on the left, and navigation links 'amazon | Help | Report bug | Logout' are on the right. Below the logo, there are tabs for 'Statistics', 'Inventory', and 'My Account'. The 'Inventory' tab is active, showing a 'Campaigns' section with a sub-tab for 'Video Ads - Player Info'. The main content area is titled 'Campaigns of Amazon' and shows a dropdown menu for 'Advertiser: Amazon'. A table lists the campaign details:

Name	Status	Type
Amazon - Default Campaign	Completed	Remnant

To the right of the table, there is a 'Banners' section with a 'Show' dropdown set to 'All campaigns'. Below this, a summary box provides the following statistics:

- Impressions Booked: Unlimited
- Clicks Booked: 30
- Conversions Booked: Unlimited
- Start date: 28-01-2013
- End date: -
- Priority: Low

Picture number 2:

You can click on campaign properties where you will see banners used in that advertising campaign.

The screenshot shows the OpenX Ad Server interface. At the top, there's a navigation bar with 'OpenX Ad Server' on the left and 'amazon | Report bug | Logout' on the right. Below this, there are tabs for 'Statistics', 'Inventory', and 'My Account'. The 'Inventory' tab is active. On the left sidebar, there's a 'Campaigns' section with a sub-link 'Video Ads - Player Info'. The main content area is titled 'Banners in Amazon - Default Campaign' and shows a breadcrumb trail: 'Advertiser: Amazon > Campaign: Amazon - Default Campaign'. Below this, there's a 'Banners' section with a 'Show' dropdown set to 'All banners'. Three banners are listed:

Name	Size	Url	Weight
720 banner	Custom (720 x 176)	http://www.kinkbomb.com/home.php?bid=53&partner=111764	1
fenndomcentertop	Custom (468 x 90)	https://www.inet-cash.com/click/20658	1
singlepost	Custom (468 x 90)	http://refer.ccbill.com/cgi-bin/clicks.cgi?CA=924519-0024&PA=2349835&BAN=0	1

Picture number 3:

On banner properties page you can change your banner during the campaign.

The screenshot shows the OpenX Ad Server interface for editing a banner. At the top, there's a navigation bar with 'OpenX Ad Server' on the left and 'amazon | Report bug | Logout' on the right. Below this, there are tabs for 'Statistics', 'Inventory', and 'My Account'. The 'Inventory' tab is active. On the left sidebar, there's a 'Campaigns' section with a sub-link 'Video Ads - Player Info'. The main content area is titled 'Banner: singlepost' and shows a breadcrumb trail: 'Advertiser: Amazon > Campaign: Amazon - Default Campaign'. Below this, there's a 'Banner Properties' section with 'Shortcuts', 'Actions', and 'Help' buttons. A banner image is displayed with the text 'FOOT WORSHIP'. Below the image, there's a 'Basic information' section with a 'Name' field containing 'singlepost'. Underneath, there's an 'Upload a local banner to the webservice - banner creative' section with a radio button selected for 'Do you wish to keep your existing image, or do you want to upload another?' and a file selection area showing 'c9ab8c9bc3a327a73792d56f6b709da9.jpg (24 Kb)' and a 'Browse...' button. Below this is a 'Banner link' section with a 'Destination URL (incl. http://)' field containing 'http://refer.ccbill.com/cgi-bin/clicks.cgi?CA=924519-0024&PA=2349835&', and a 'Target' field. At the bottom, there's a 'Banner display' section with fields for 'Alt text', 'Status text', and 'Text below image'. The 'Size' section has 'Width: 468' and 'Height: 90' fields. A 'Save changes' button is at the bottom left, and a '* denotes required field' note is at the bottom right.

Picture number 4:

Picture number 5:

On advertiser history page, you can see precise statistics and you can export them into Microsoft Excel file for later analysis.

The screenshot displays the 'Advertiser History' page in the OpenX Ad Server interface. The page features a sidebar with navigation options: 'Statistics', 'Inventory', and 'My Account'. Under 'Advertisers & Campaigns', there are sub-options: 'Global History', 'Websites & Zones', and 'Advanced Reports'. The main content area is titled 'Advertiser History' and has tabs for 'Advertiser History', 'Campaigns', and 'Website Distribution'. A search bar and user information (petar | Report bug | Logout) are at the top right. Below the tabs, there is a dropdown menu set to 'All statistics' and an 'Export Statistics to Excel' button. The main data is presented in a table with the following columns: Day, Impr., Clicks, CTR, Rev., and ECPM. The table lists daily data from 2012, with a 'Total' row at the bottom. The 'View by' dropdown is set to 'Day'.
